Custom Fabrication of EDGE Performance Appliances

INSTRUCTIONS

Please provide the following:

1. Upper and lower PVS impressions or die-stone casts. Uppers should record the palate, teeth and vestibule; lowers should record labial, buccal and lingual vestibule as well as the teeth. Casts should be poured in die stone with a moderate base.
2. Centric occlusion bite registration.
3. Please send a separate cast or PVS impression for each appliance ordered; if you want two lower appliances, send two lower casts or impressions.
4. Indicate what products are being requested adding any special requests or instructions.

Note: All appliances are fabricated by highly trained Bite Tech laboratory technicians and all cases are reviewed by Bite Tech dentists.

SHIPPING INFO

Please ship to:

Bite Tech Lab
Westside Medical Park
180 SW 84th Avenue, Suite D
Plantation, FL 33324
